Independent Third-Party Engineering Quality Check Report - Sample

Project: Kurnool Smart Road Expansion

Certificate ID: RMDT-QC-2026

Inspection Scope: Concrete quality, reinforcement layout, site safety, and IS-code compliance.

Executive Findings

1. Concrete cube samples satisfy the specified compressive strength threshold.
2. Reinforcement placement verified against approved drawings and steel grade documentation.
3. Field checklist confirms safety barricading, curing records, and material traceability.
4. Final clearance requires routine curing log submission and engineer sign-off.

Digital QC Stamp

Status: Verified for client demonstration. Replace with certified report for live project use.

Prepared for internship showcase website deployment.
